

2019 and it's just getting better and better in the CF world. We're ramping up for the big CF shoot and look forward to seeing you, hearing from you and getting to see each of you once again. We have attached sponsor information. To sign your team up go to this site: <https://fm77.triple8.net/fmi/webd/#OnLineSignUp> Give a look and get signed up!

A short update on two of the CF kids that we know, Callie and Cale Deanda. They get used as the benchmarks for all of us because we get a snapshot of their lives on a yearly basis.

Callie (now 22) is enrolled in the Advanced Bachelors of Student Nursing (ABSN) at the University of Tennessee and will graduate as Registered Nurse in August of 2019. It has been quite a journey for her working through so many issues related to CF and LIFE! And life is what she has because of all of you. She is also a top level soccer referee, working on a state level certification (that's a big deal!).

Cale (20) is, as usual always into something new. In the past few years we've seen many dirt bikes, jet skis, 4-wheelers, paintball guns, etc. go through the garage. He always makes some money fixing, trading, buying and selling. His world is in constant motion. And good news for him, he's now a full-time employee of Sevierville Water Systems and for whatever reason the owner of a Smart Car (what's up with that?).

And just so you stay in the loop with all 3, Gray is now married, living on post with his new bride (she's a good one). He's still working the the Army's elite Special Forces. So proud.

Most importantly, Callie and Cale have been participating in a drug trial, VX-659. This is a double blind study. It is very obvious that Cale has been given the real drug and Callie the placebo. Cale's lung function has increased dramatically, he has gained 10 pounds in 4 months (he started the trial at 120). Callie has seen no improvement, but rather the steady decline of this killer disease. The good news is the trial ends in January, 2019 and then both will have the privilege of continued use of the drug, the REAL drug. We are so thankful, so encouraged.

Come and shoot with us. We'll give you the rest of the story.

Why join Vulcan Materials Company and help sponsor the 'Make-A-Break-Thru for CF' Sporting Clays Tournament? Your donation will be used to help find a cure for cystic fibrosis the most prolific genetic killer of our children. Research in the recent past has produced several successes in treatment and many believe that a cure will be found in the near future. In the 1960's the life expectancy of a CF child was 4 years, now, 2019, it has risen to 49. With your help, we WILL find a cure and further extend life expectancy.

After reviewing the opportunities please select a sponsorship level below.

- |  |   |
|--|---|
| <input type="checkbox"/> Title Sponsor<br>(Sold to Vulcan Materials, \$25,000) | <input type="checkbox"/> Gold - \$2,500   |
| <input type="checkbox"/> Event Sponsor - \$10,000                              | <input type="checkbox"/> Silver - \$1,000 |
